

Richmond Cedar Works,

The World's Largest Manufacturers of Wooden Ware.

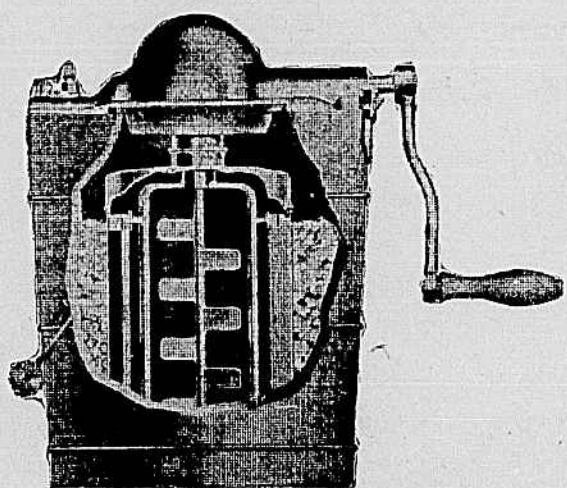

Thirty-eight years ago we commenced business in old Libby Prison Building, Richmond, Va., with one lathe and a score of workmen, turning out Tubs and Pails. Our mammoth plant now consists of modern brick buildings covering twelve acres of land and equipped with the latest and best machinery. We own 2,000,000 acres of timber lands and employ 2,000 workmen. We own and operate our own railroads, locomotives, freight cars, logging and hoisting engines and our own fleet of barges and steamers for supplying our big plant with timber. We now manufacture Ice-Cream Freezers, Ice-Cream Packing Tubs, Washing Machines, Churns, Well Buckets, Kegs, Tubs and Pails, Lard Pails, Candy Pails, &c., &c.

We make daily 275,000 Clothes Pins and use forty miles of wire per day in hoops for our Electric Welded Wire Hoop Ware. Our goods are shipped to every land under the sun.

Two of the World's Winners

The "SNOW-BALL"

Made of Virginia White Cedar, the best wood known to man for resisting the action of brine. :: :: ::

Ice Cream

Freezer

Bound with **ELECTRIC WELDED WIRE HOOPS**, sunk in grooves. Won't break, and can't fall off. Outside castings double galvanized. Inside castings heavily tinned. The best and only Three-Motion Freezer, made with a Virginia White Cedar tub and with gearings **ENTIRELY** enclosed. Will last a lifetime.

The "SNOW-BALL" has a large, roomy ice space, and freezes a nice, smooth, velvety cream quicker than any other Freezer. Ask your dealer for the "Snow-Ball."
